### What do you like best about living and working in the Columbia area?

Columbia is just the right size, big enough to have everything you need without all of the traffic and dispersion of a major metro area.

### In what part of town (or the area) do you live now? What do you like most about your neighborhood?

We live on the north side. This area is extremely convenient to downtown and has many amenities such as the Bear Creek Trail and Albert-Oakland Park that are often overlooked.

### What do you enjoy doing when you are not working?

I like to read and travel.

### How long have you worked in real estate? Why did you start?

I was first licensed in 1993. I got involved in real estate because I wanted to be self-employed and work for clients rather than a corporate structure.

### What is your specialty? Why do you like it?

We work with many first-time homebuyers and home sellers. I get a lot of satisfaction from helping young families make decisions that will set them up for long-term financial success.

### What do your clients say they like best about working with you?

Our clients especially appreciate our attention to detail and responsiveness to their questions and concerns.

### What is the most unusual property you've listed or sold?

We once sold an antebellum home on a small acreage that had once been a grand farm house.

### Why should people choose you as their real estate agent?

We are very knowledgeable about the Columbia residential real estate market and achieve outstanding results for our clients.
